New UI Features and Enhancements
Customer Deployments
New Customers
JIRA Project Tracking: Completed

RelNotes Mar 31, 2021

NOTE To help Minder users understand and implement new functionality, Minder Release Notes are made available for the Minder monthly release. **New Minder functionality described in this edition of the release notes is available in Minder as of April 8th, 2021.**

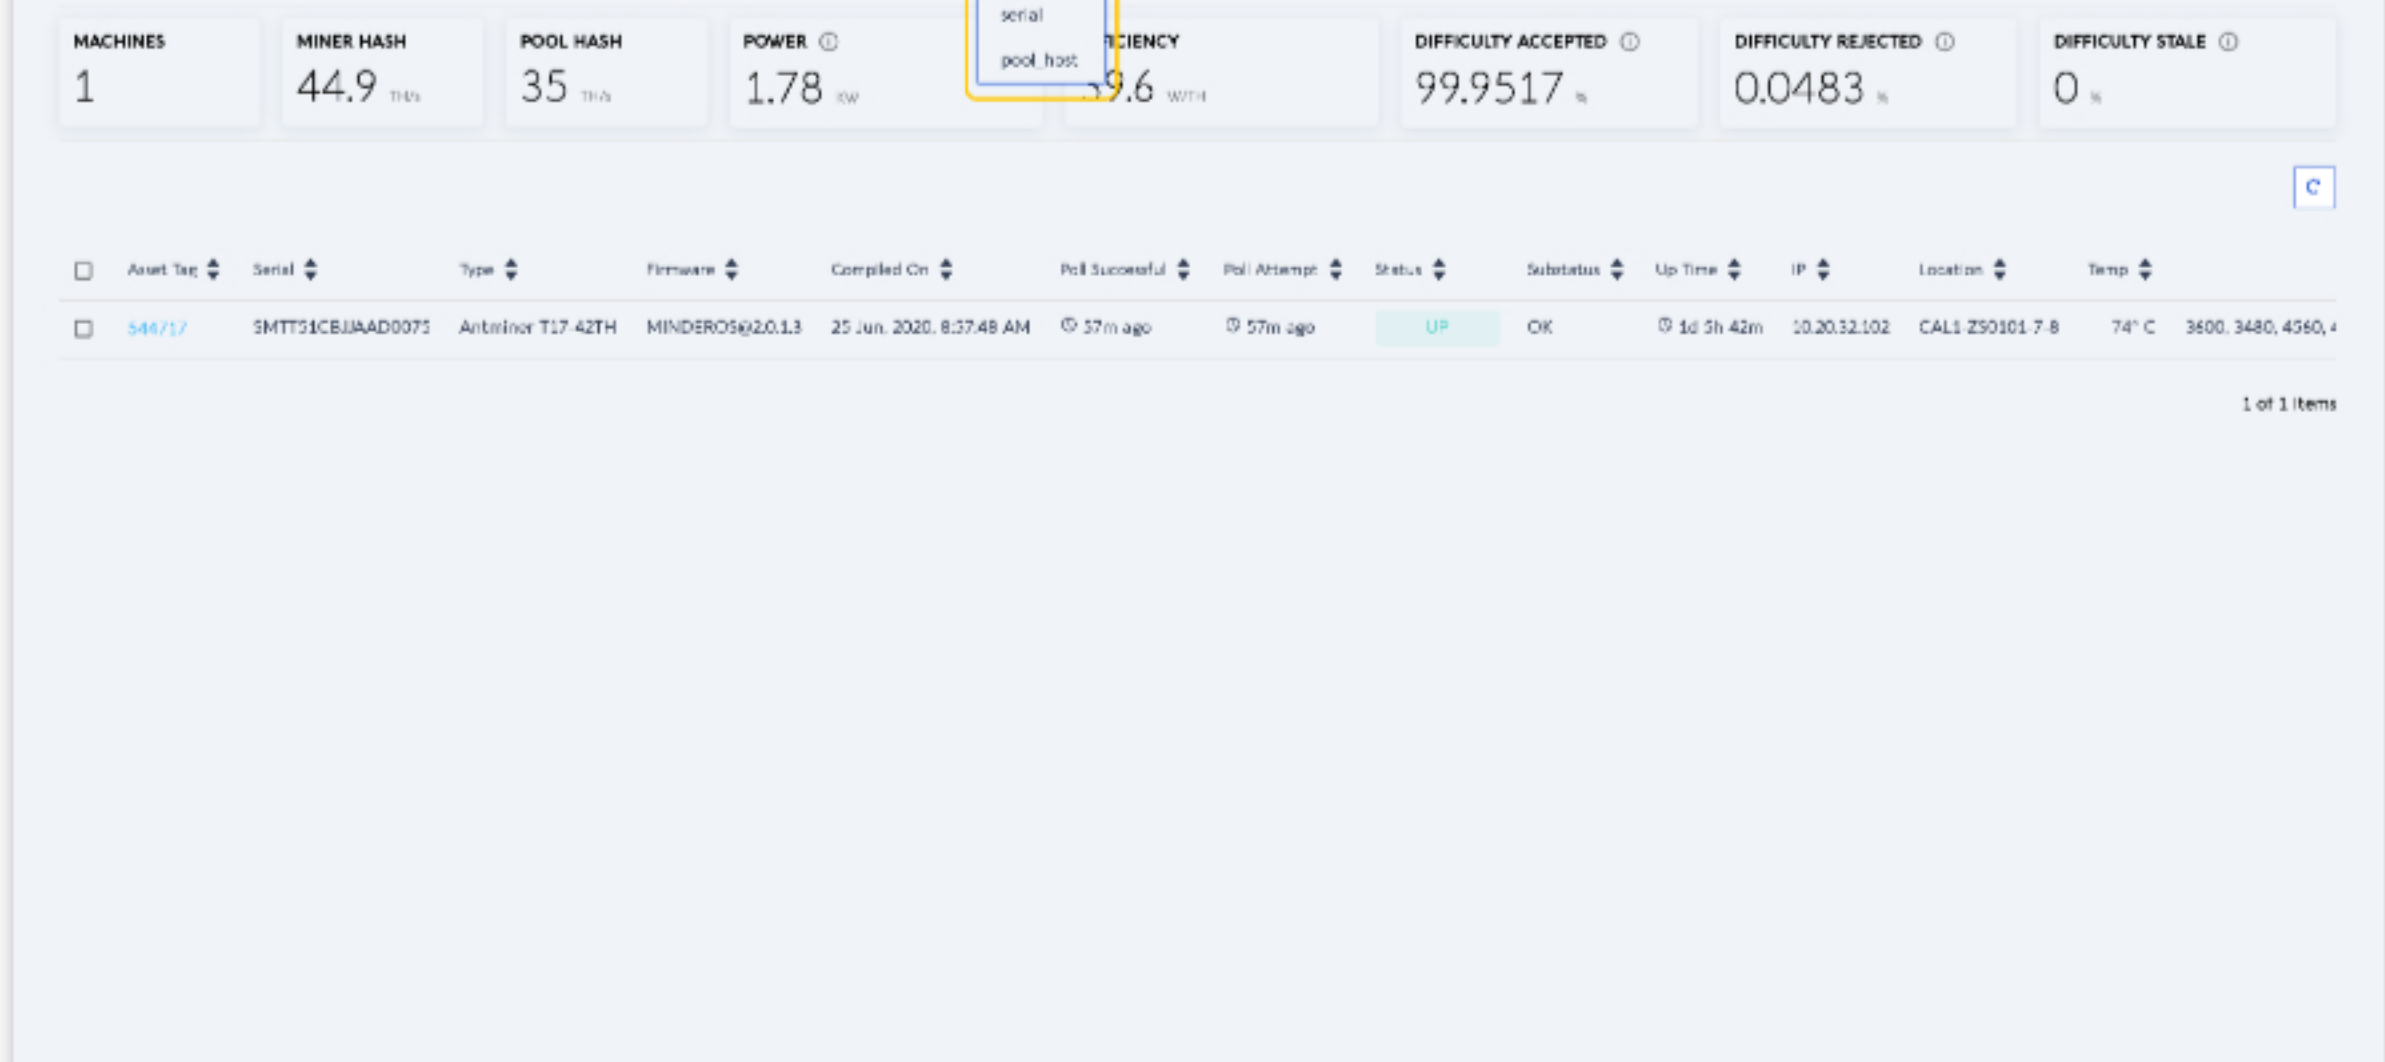

New UI Features and Enhancements

- Summary Cards, Tooltips and columns now include data categories for **Difficulty Accepted**, **Difficulty Rejected** and **Difficulty Stale** attributes:

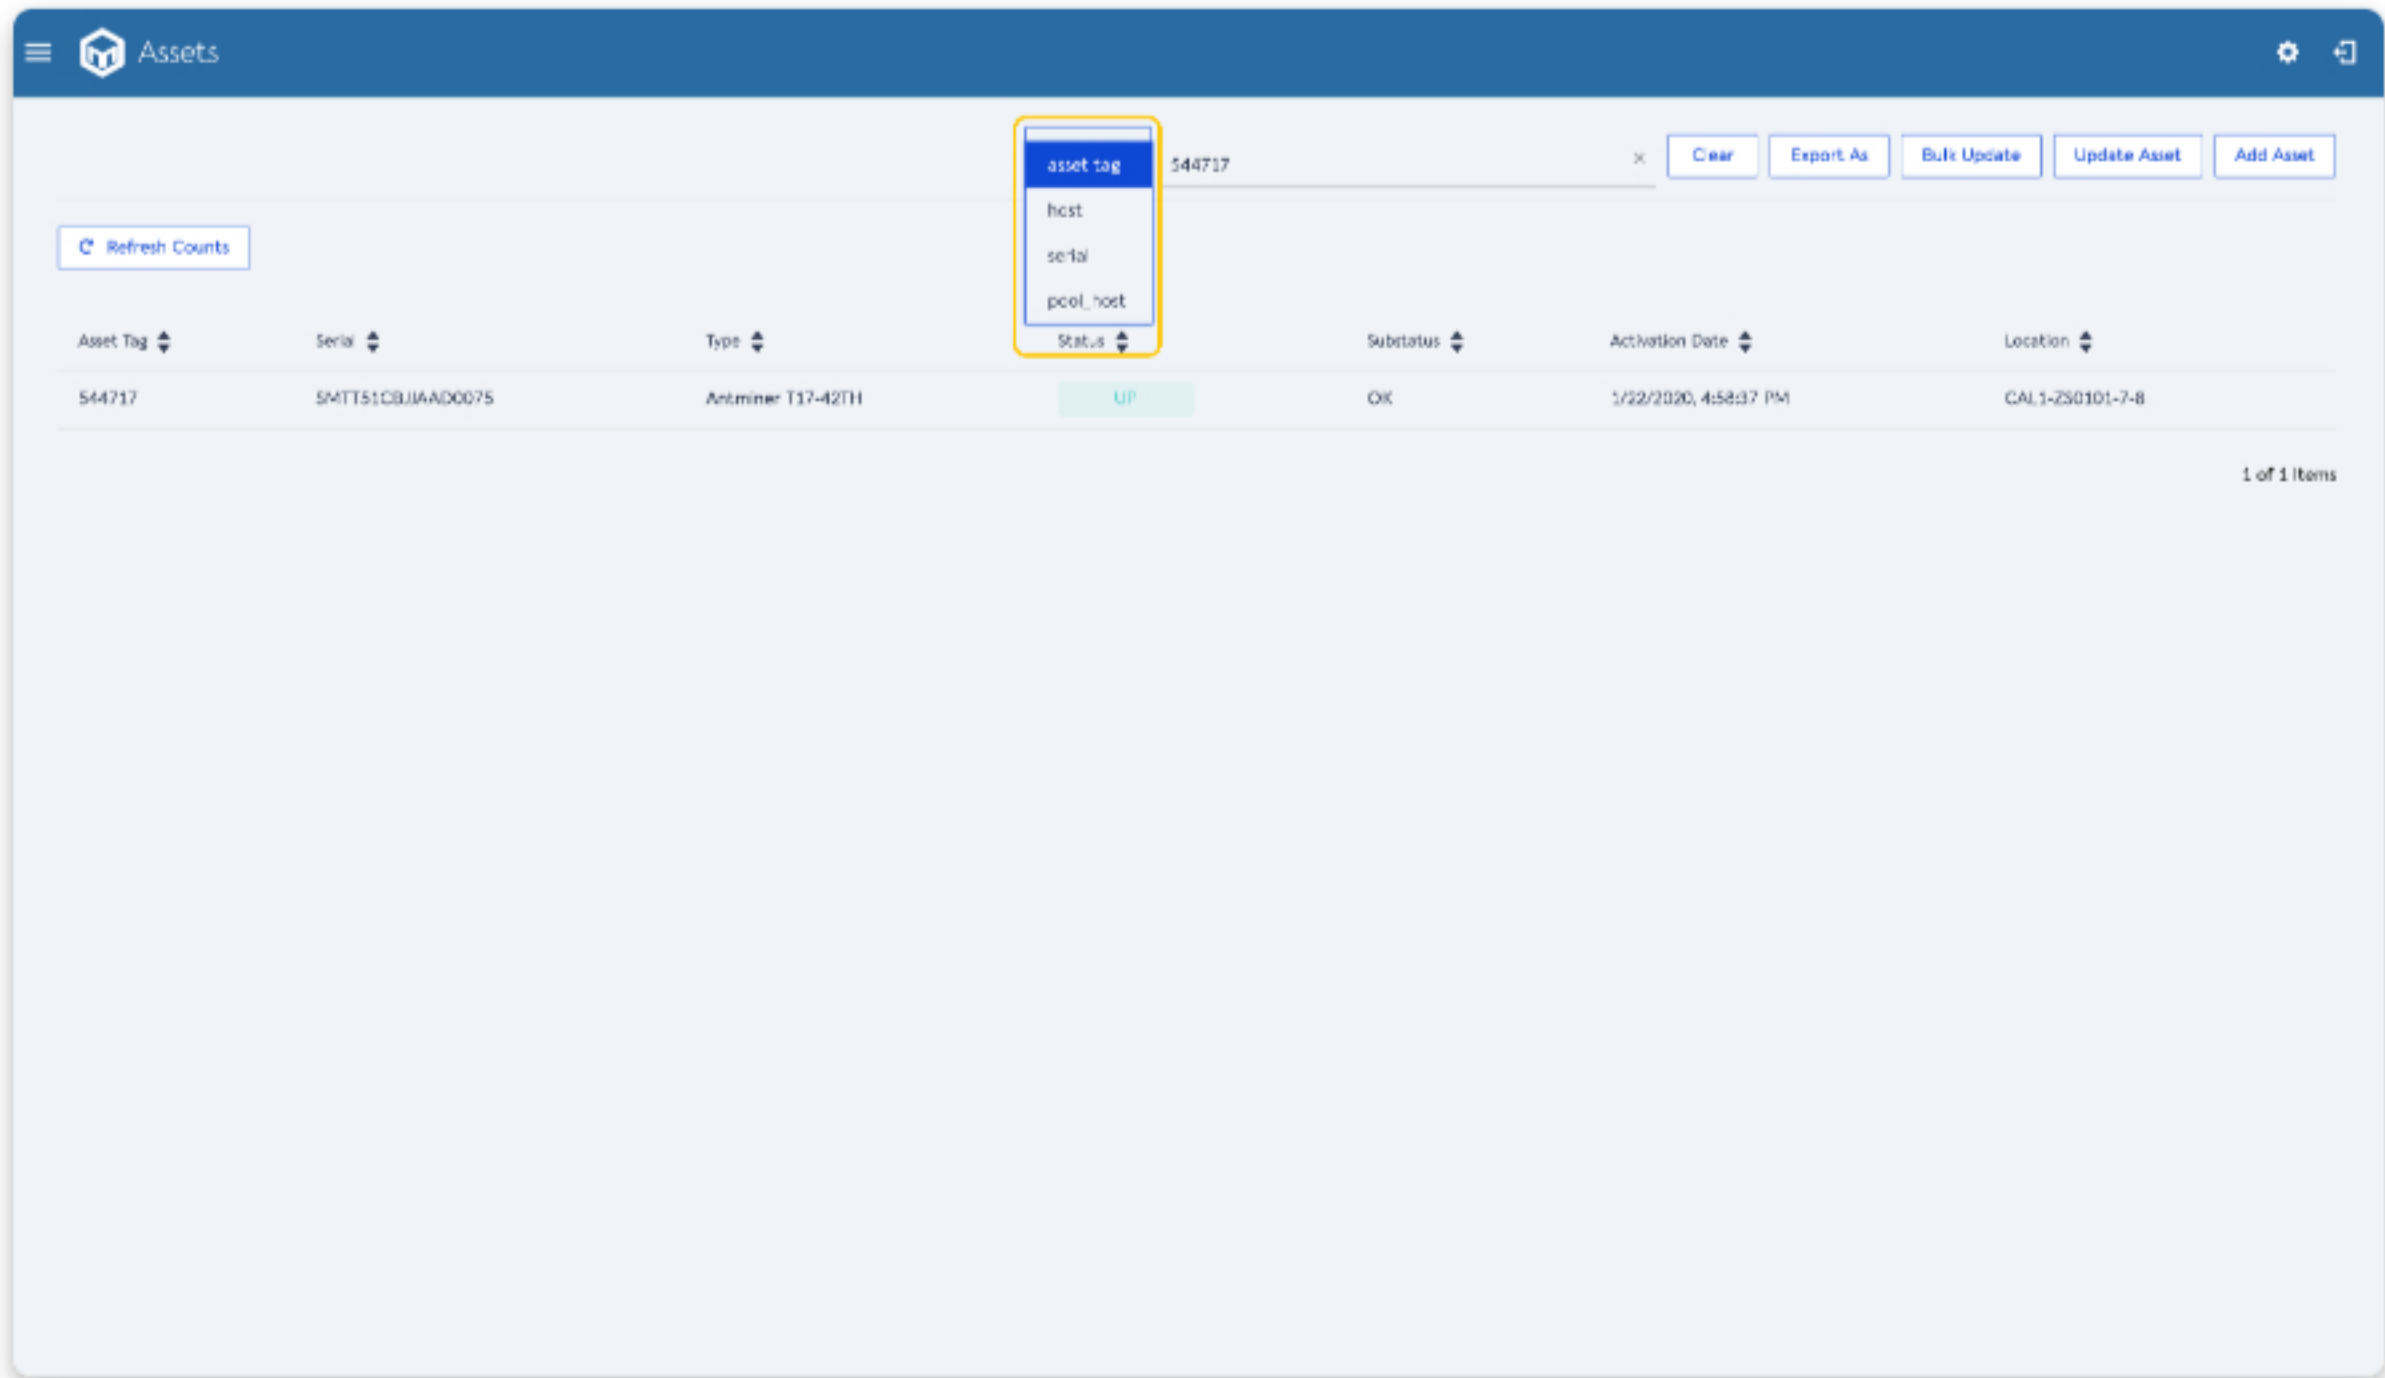

- Servers**, **Assets** and **Tickets** pages now have a drop-down menu to select search criteria with the following values:

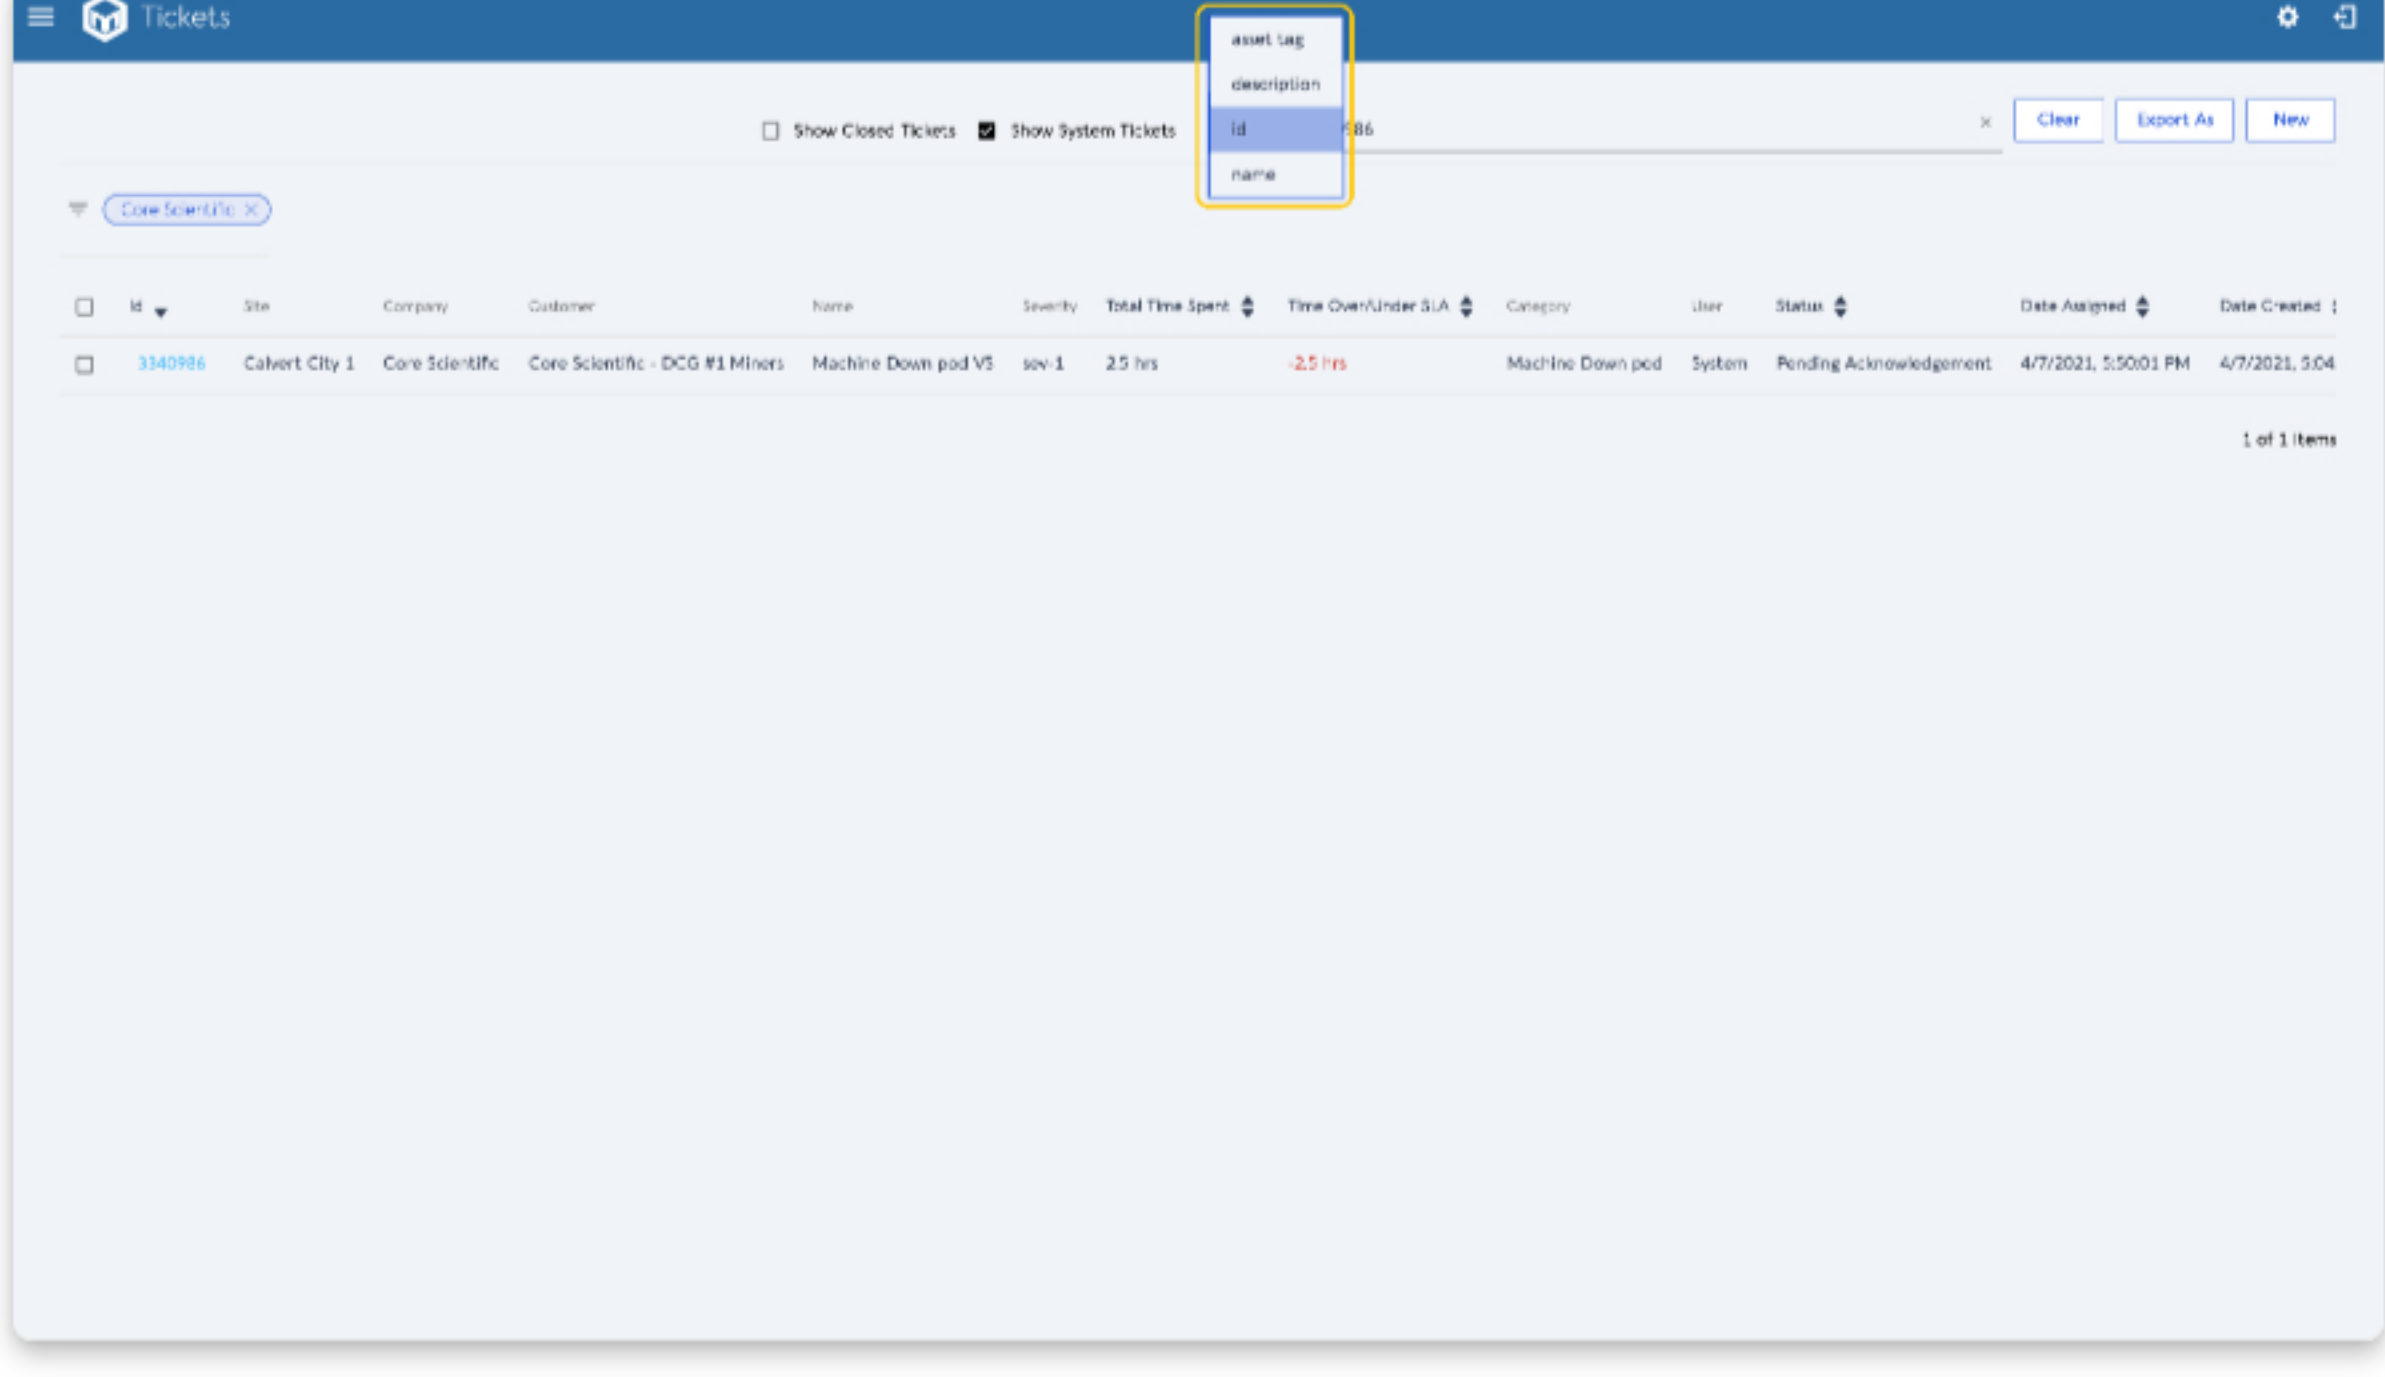

- Servers** - Asset Tag (default selected), Serial, Host Name, Pool Host, IP

- Assets** - Asset Tag (default selected), Serial

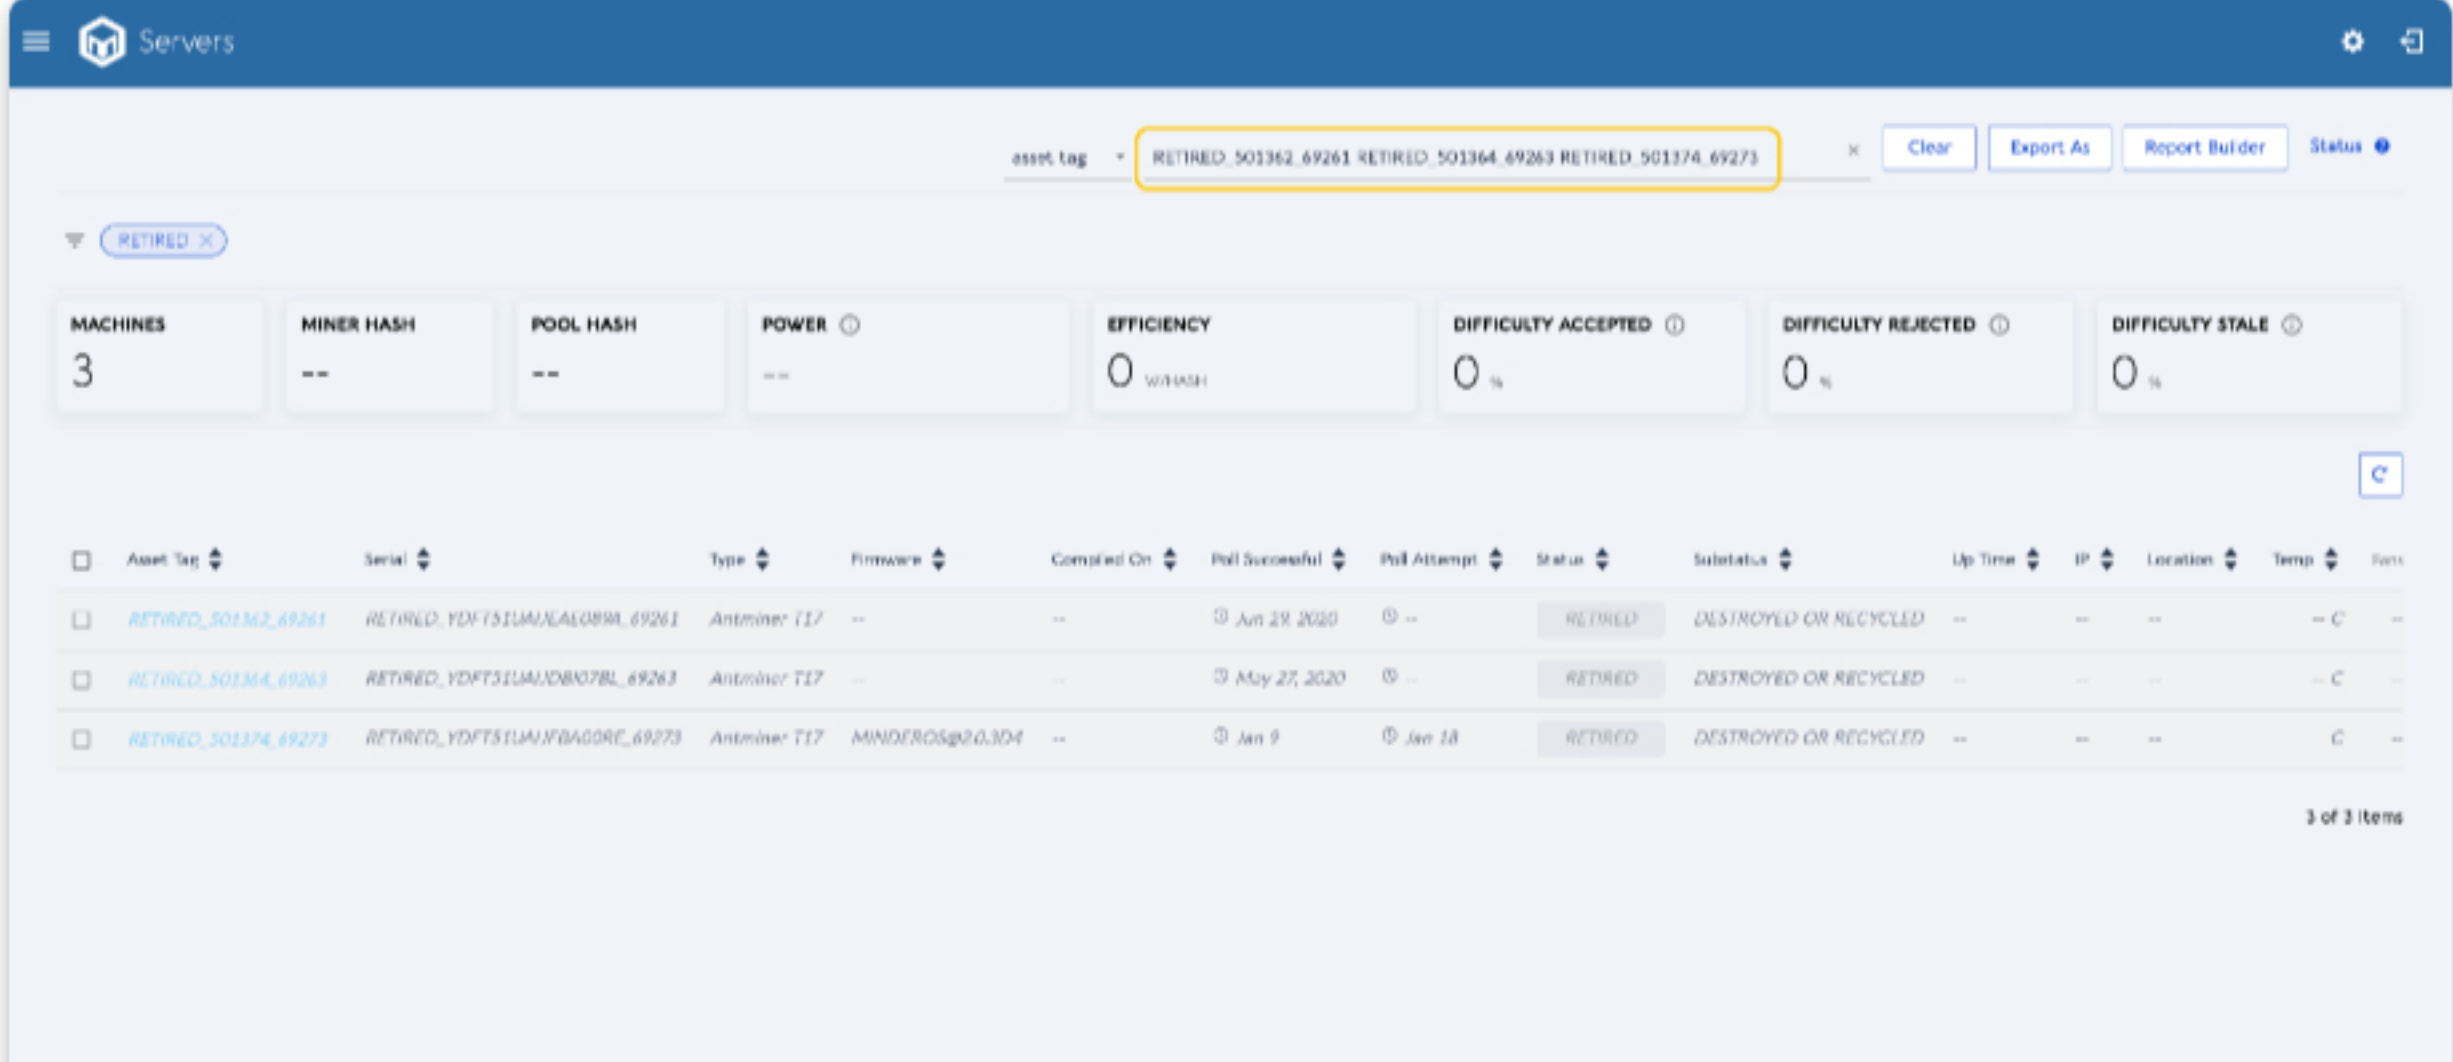

- Tickets** - Ticket ID (default selected), Asset Tag, Title, Description

- Added week-over-week data trends to OPEX weekly report summary cards to show **In Repair** and **Completed** data:

- Retired assets are now searchable on the Servers page:

Customer Deployments
